#### Breathable upper

Increased moisture and temperature management for extended wearer comfort.

#### Metal free

Metal free safety shoes are in general lighter than regular safety shoes. They are also very beneficial for professionals who have to pass through metal detectors several times a day.

#### Slip resistance (SR) Replaces the previously used

term of SRA+SRB=SRC. SR means the slip test has been executed on tiles contaminated with soap and with oil.

BLK

LBL

SJ Foam Removable comfortable antistatic footbed providing fit, guidance and optimum shock absorption in heel and forefoot. Breathable and moisture absorbing.
